FRONTEND WEB DEVELOPER

PROFILE

With over 2 years of dedicated expertise in harnessing the power of the React JS web library, complemented by proficiency in TypeScript, TailwindCss, Node JS, Docker containerization, and AWS IaaS. My profile has spanned a spectrum of technologies, encompassing Redux for streamlined state management, Firebase for robust authentication and analytical insights, integration of Google Maps for enhanced user experiences, dynamic real-time chats through Socket.io and containerization via Docker for seamless hosting solutions. This dynamic journey has improved my knowledge comprehensively on these essential development tools.

Driven by an unwavering passion for growth, I embrace opportunities that provides knowledge and foster an environment conducive to both my learning and contribution.

CERTIFICATION

UDACITY Cloud Developer Nanodegree
GOOGLE Cloud Developer
Electrical and Electronics Engineering (Unilorin) ...*in view*

KEY ACCOMPLISHMENTS
